

It's you that counts with

We really can  
make a difference.

**“It sounds a bit of a strong claim, but it’s true. We really go that extra mile to make sure our solutions are the right ones for you, after all getting the best answers to the right questions is our ethos.**

We listen to you, understand your ambitions to help us to make sure that we do the best for you and your business.

We cover all of the bases. Accountancy, Audit and Taxation, as well as Corporate Finance are the major strings to our bow. We believe we have the skills and expertise to do the basics as well as advise and propose things that might be just that little bit different.

So if you are in the market and looking for more than a standard accountancy service then give us a call and we’ll chat through how we can make a difference to you.”

**Yvonne Wood Managing Director**

A handwritten signature in blue ink that reads "Yvonne Wood". The signature is written in a cursive style and is positioned to the right of the printed name.

There’s a hackneyed phrase, “thinking outside the box,” but it does somehow sum up what we do best for our clients.

There are hundreds of examples of what we’ve done, but for reasons of confidentiality we can’t go into too much detail. However, one of our clients summed us up by saying;

*“Bennett Brooks have been our accountants for over 10 years. During that time they have been highly proactive and genuinely involved in how our business has grown – we have trebled in size since taking them on. They are our sounding board, our first port of call for advice, a quiver of expertise available at the end of a phone. They also produce our accounts - but that isn’t why we value them.”*

We can give you lots more examples in all of our different fields – all you have to do is ask.

It all adds up to a  
**comprehensive service.**

As one of the few practices outside of the M25 in the nations top 100, we certainly have the expertise to answer your financial questions. But to us, it's not the sheer size of the organisation that matters, it's all down to personal service.

So what are the basic services?

**Audit and Accountancy**  
**Taxation**  
**Corporate finance services**  
**IT**

They all involve us understanding your industry and not just putting standard answers to standard questions. Everyone's different and that's how they're treated, to give you a better service.

Here are just a few of our specialisms.

**Legal Sector.**

We deal with over 250 legal practices with our specialist services, including, forensic accountancy, management consultancy and advice on SRA compliance visits.

*We could go on and on, but hopefully you get the point, we have that enquiring mind that can make a difference.*

People you can **count on.**

**Every business is only as good as the people who work there.**

**It's all well and good having a customer-first philosophy, but if the team is not fully committed to the ethos it won't work for you.**

**We genuinely believe that the continual stream of business recommendations and testimonials we constantly receive, prove that we get it right.**

Here, at Bennett Brooks we're really fortunate, the key players at each of our offices have become totally immersed in the business and they are people you can depend on.

No matter what help or advice you're looking for, all you need to do is call us and we will put you in touch with the individual or indeed the team that can help.

We believe we have become a formidable team. Working across all offices our skills in both management and our individual specialist areas have made us the force we are today. There is little our people haven't come across and dealt with both efficient enthusiasm and ability.
