We really can make a difference

Basic Support

We provide a compliance service that presents value for money in today's market but we ensure we look at your specific needs to give you the best advice for your individual circumstances. We recognise that packaged services create voids and individual needs will fall outside the boundaries of the standard package, that's why we treat everyone as individuals and make sure that our advice is tailored to you.

Accounts Support

This service builds on the basic support service, for when you need accounts to be prepared because you have more complex transactions with more than just one income source. It's the same level of excellent service expertise and advice but designed for individuals with a greater need for accounting support.

Limited Company Support

Limited companies can provide great tax advantages, it is not always the most tax efficient option. For those with limited companies there are also increased costs in administrating them (but the tax savings usually outweigh these costs). Our limited company support service takes account of all those administrative needs and the additional advice required. We ensure you get the best advice at all times.

"Bennettbrooks know exactly the service a locum requires; they provide timely reminders to ensure that the locums comply with the required deadlines; give great tax advice and; they provide clear communication to make sure everything is understood.

I advise all of my locum vets to use bennettbrooks and I always get great feedback from them."
