

bb forensic services

People you can count on.

"Our forensic team adds to the comprehensive support services that we provide for the legal sector. We pride ourselves in creating the service solutions that you and your clients need. That means we put ourselves in your shoes to look at how we can deliver you a service that will exceed your expectations."

Yvonne Wood, Managing Director

Every business is only as good as the people who work there. It's all well and good having a customer-first philosophy, but if the team is not fully committed to the ethos it won't work for you. We genuinely believe that the continual stream of business recommendations and testimonials we receive, prove that we get it right.

"Our new clinic sessions have had great feedback. We will visit your office and hold a free consultation with your case handlers to help get your cases moving. We demonstrate how easy and straight forward we are to deal with, and with great rates we aim to be the people you call first when a complex case arises, or even just for litigation support with scheduling."

Andrew Davies, Associate Director
