Our Ethos

About Us.

“It sounds a bit of a strong claim, but it’s true. We really go that extra mile to make sure our solutions are the right ones for you, after all getting the best answers to the right questions is our ethos. We listen to you, understand your ambitions to help us to make sure that we do the best for you and your business.

We cover all of the bases. Accountancy, Audit and Taxation, as well as Corporate Finance are the major strings to our bow. We have the skills and expertise to do the basics as well as advise and propose things that might be just that little bit different. So if you are in the market and looking for more than a standard accountancy service then give us a call and we’ll chat through how we can make a difference to you.”

One client summed us up by saying; “Bennett Brooks have been our accountants for over 10 years. During that time they have been highly proactive and genuinely involved in how our business has grown – we have trebled in size since taking them on. They are our sounding board, our first port of call for advice, a quiver of expertise available at the end of a phone. They also produce our accounts - but that isn’t why we value them.”

A comprehensive service.
